ABSTRACT

Type your abstract here. The abstract must not exceed 100 words. Author names and affiliations must be listed.

INTRODUCTION

The digest is meant to be a short version of your intended paper that facilitates quick and easy review [1]. The digest, starting with the ABSTRACT and ending with the REFERENCES must be at most five pages long. You are required to submit references as part of the digest. The REFERENCES section must be included within the five-page limit. Use at least 10 pt. font (12 pt. is preferred), single- or double-spacing, single column and 1” margins. Please bear in mind IFEEC reviewers often have to review several digests; therefore, please do not submit a full length, single-spaced paper that is simply cropped down to five pages.

FIRST SECTION

Enter text, equations, and figures for your first full section here. You do not need to follow this format exactly, but it is preferred by the IFEEC Program Committee. See Fig. 1 for a sample figure. If reference materials are referred, square brackets should be used [2].

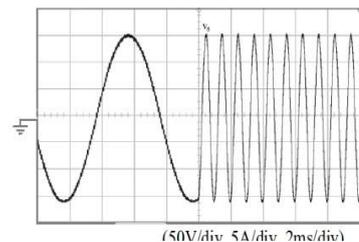

Figure 1 Sample Figure

SECOND SECTION

Enter text, equations, and figures for your second full section here. Repeat necessary for other sections [3,4]. Equations should be expressed in the following format:

$$f(a,b)=a^2+b^2 \tag{1}$$

CONCLUSIONS and FUTURE WORK

State your conclusions here and your plans for the final submission of a full paper, assuming your digest is accepted. You are reminded that IFEEC reviewers will prize experimental results and real-world applications, and as such, you should be sure to address these points in your digest. Evidence of completed experimental work will naturally be prized more than

promises of future experimental work.

REFERENCES

{Note: references are **required**. This section must not cause you to exceed the six-page limit. References can be single-spaced.}
